Event TRAIL OF HEROES

TRAVEL PHILOSOPHY

Dear Athlete, by welcoming you, we want to make this regulation available so that, in compliance with the rules, you can have a wonderful experience to remember over time. It is important that you are aware that you will find yourself running in a natural environment, rich in history that gives strong emotions but which also wants to be respected for this. This year the "Travel" proposals that we make available to you will be 3! The Grappa will welcome you from two different sides.

In drafting this regulation, we paid particular attention to the safety of competitors and respect for the nature that welcomes them. Being still here reading it, makes us understand that you are among the Trail Runners who correctly face the race, for this we thank you.

And it is precisely in respect for the environment that our attention is particularly focused, so that many others after your passage can enjoy the same privileges. For safety and the protection of your health, adequate training is important, which allows you to calmly face the path and appreciate its qualities. Also remember that some points of the regulation that might seem difficult to you arise from the desire to make the administrative tasks usable and fast.

We hope for a triple and mutual satisfaction:

- you will be happy because you will return home with a wonderful memory, probably discovering places that you did not know before.
- we will be happy because our passion has always been that of valorising our mountains.
- nature will be happy because it has been respected.

Read it calmly to understand its content but above all its meaning.

RESPONSIBLE

Race director Davide Zanetti phone [3291974684](tel:3291974684)

Having said that, now let's move on to the regulation that will be read, shared and accepted without reservation in all its parts.

REGULATION 2020

ARTICLE 1 - GENERAL INFORMATION

"TRAIL OF HEROES – SKY OF THE HEROES – ULTRA TRAIL OF THE HEROES" are competitive races of racing innature, aimed at the promotion of the territory, its history and the nature that distinguishes it, the and provinces of BELLUNO TREVISO VICENZA and sport in nature valuing the historical resources of food and wine tourism and naturalistic provinces.

THEY ARE NOT MANIFESTATIONS OF ATHLETICS ARE NOT FIDAL MANIFESTATIONS.

While reiterating our esteem and friendship with the manifestations of athletics, we tend, for security reasons, to emphasize that the nature of these events is profoundly different from that of strictly podiistic manifestations.

This is why the regulation might appear to some readers "too restrictive" and "exaggerated" when compared to races of equal distance under the federal aegis.

The Trail Of Heroes Event, for simplicity TdE, which also includes the Sky of Heroes, for simplicity SdE, the Marathon of Heroes, for simplicity MdE and the Ultra Trail of Heroes, for simplicity UTdE, takes place in a potentially hostile environment, in the autumn period, nothing to do with competitions focused solely on athletic gesture.

If, in fact, from the perspective of the FIDAL competition, particularly hostile weather and terrain conditions cause cancellation, in this case they represent one of the natural variables, one of the fundamental elements of the race on which the participants compete in the competitive act. Competitors must relate to this event with the optics and rules of hiking, mountain running and those used to deal with the natural environment independently without underestimating the rules and requirements of the organizers, acting in the interests of the maximum safety of competitors and with knowledge of the cause gained from years of experience in mountaineering.

The event consists of Sky and Trail races in semi-autonomy, organized not-for-profit by APS GS I LUPI TEAM – ADVENTURE RUN volunteers in collaboration with Local Associations, Bodies and People who believe in these values.

The races are affiliated with ITRA. There are no costs or obligations in this regard for athletes.

The races are of a competitive Ludico/Motor character, they require the equipment described in this regulation.

They take place in a single stage.

ARTICLE 2 - RANKING AND PREMIES

There is a general classification with arrival times and posted on the website www.traildeglieroi.it. The distinct categories in the ranking are "men" and "women".

There are prizes in nature.

Special prizes are awarded to the first arrivals and a reminder of the race attesting to the title of "Finisher" to those who completed the race within the maximum time.

Tributes are also given to all members already at the time of delivery of the bibs (see "QUOTE OF REGISTRATION AND PACCO GARA").

ARTICLE 3 – TRACK, REFRESHMENT and PARTICATION TO THE CAMPAIGN "I DON'T THROW MY WASTE"

The races are run in semi-autonomy. The semi-autonomy to the "TdE" is defined as the ability to be autonomous between two refreshment points, in terms of their own safety, power and equipment, thus allowing you to be ready to face unexpected problems, for example adverse weather, physical discomfort, small injuries etc.

Water supplies can be made via natural water sources along the route and marked on the map and roadbook.

In order to limit waste production, there are no plastic cups at the rice pot or will be kept to a minimum, so it is mandatory that each competitor has a drinking vessel with them.

Upon arrival, each participant can enjoy a full refreshment and a meal offered with the registration.
